Reusing And Recycling (Help The Environment)

Synopsis

This series introduces very young children to the concept of caring for the environment in an attractive and accessible way. Based on children's real-life experiences, the books focus on things children can do to help the environment and keep the world around us clean. In this book, children learn about reusing and recycling common household materials including paper, glass, plastic, and metal.

Grade Level: Preschool and up

Customer Reviews

This was a great addition to my collection of books on recycling. I am a teacher as am pro-green.

Very informative about taking care of our environment.

Excellent materials for all the books I bought but if teachers can get special discount because we need tons of class room resources and books for our kiddos.
