Customer Reviews

I love adult coloring books. I have purchased many on , etsy and eBay. Some people say they like them because it is a form of nostalgia. However, for me-it is completely different. It is therapy. I went through intensive therapy 2 years ago- and one of the strategies was coloring. It clears all thoughts from your mind. It is so peaceful. I'm not perfect at coloring, but it doesn't matter. It gets my mind off of crazy things things. There are a lot of swearing coloring books on the market, especially since the adult coloring movement started. But I like this Honey Badger Adult Coloring Book Swearing

Mandalas because it puts a little humor into your coloring. This one is slightly different in that it has black backgrounds. It almost makes it less intimidating to color them. I own many many many coloring books that contain pictures so intense- it is taking me months to finish them. This book is different. I completed one page in about 30 minutes. In some strange way, I was able to calm down after coloring one of the pages. I thought it would make me more upset. But it didn't. Another thing I really like is that these can be cut out and made into a collage- which I plan on doing. This probably isn't a book I would use to truly calm down and meditate- but more of a way to release some negative energy. Overall, it is fun-and I am enjoying it! I did get a discount for my honest review of this Sweary Mandalas: Midnight Edition: Funny Coloring Books Best Sellers Coloring Books For Adults Relaxation & Adult Coloring Books Stress Relieving. I test all products before reviewing them. I am ALWAYS honest in the reviews I give. I will not give 5 stars unless I think it is accurate in the description and high quality. This sweary coloring book is hilarious. I have recently gotten into adult coloring books and so far they are all on the swear phrase side. I ordered a few and my boyfriend ended up liking them too so he took this one over. They are not full of small details and have more simple designs which I like, especially when I need to take a break from a page with a lot of detail. The pages do range back and forth from more basic designs to ones with more detail. The words are the center focus and I like that because for me I more look at the phrases than designs when looking to buy this type and these make me laugh every time I flip through. The black background is nice and makes the colors stand out more in my opinion. Also, no need to worry about colors leaking through. The cover also stood out to me with the vibrant colors against the darker background. I received this item at a discount in exchange for my honest thoughts and review after trying it out.

I enjoy this but its not as detailed as I thought it would be. I thought there would be more to color but the sayings take up most of the page. They are pretty hilarious though. People I showed kept trying to rip out pages before I even got to look through the whole book.

I received my sweary mandalas coloring book and was really excited to check it out. I have seen a lot of adult (aka R-rated) coloring books lately and they looked like fun. This coloring book in particular is pretty unique in that the pages are black, not white, and it's not just one swear word

but more like a disgruntled phrase. Honestly, I didn't understand some of the phrases, probably because I had never heard them before. That did take away a little bit of the fun - if it doesn't make sense, it's less exciting. The patterns are fun, but there is not a huge amount of coloring to do on each page. Negative space is gaining popularity in everything from coloring to tattoos, though, so it's modern in that sense. It would make for an ideal lunchtime coloring session to relieve some stress. I've had some coloring pages in the past that take much longer than a lunch break to finish. The pages are thick and since they are dark on the back as well, there isn't a chance of your color bleeding through to the next page. This would make a really fun gift for the right person! I received this product at a discounted rate for my honest and unbiased opinion.

Not a lot of coloring at all - pretty basic designs and they're big, not intricate, and the vast majority of the page is just black. It's also not as "sweary" all the time, but more gross. Not impressed, and as far as adult coloring books go it's not fun to color at all. I received this product for free or at a discount in exchange for my honest and unbiased review. I have received and fully used the product before posting this review. My review is one-hundred percent of my own opinion and not influenced by the seller, or any other outside sources. I am not under any obligation to give this product an unfair rating, and all ratings reflect my actual experience with the product and are completely genuine. I have always relied upon the reviews and ratings of others on websites and always strive to provide an honest description that others can use to base their purchasing habits on. I know a lot of people are very dismissive of reviews that are provided by people who receive products for free or at a discount, but I go out of my way to make sure my reviews are unbiased and reflect only the product and my real experiences with it. I think product testing is a very important part of the consumer experience and helps both the consumers and the sellers, so I try to do my best in regards to accurately reflecting that. If I give a product five stars, it's because I genuinely love it and would pay full price for it. Four stars means that it's an overall good product with maybe one or two tiny flaws, but I would still probably buy it for the full price. Three stars means it's just okay and nothing special, and there's a slight chance I'd pay full price for it. Two stars means it's not great at all but has at least one redeeming quality. Anything I rate one star is something I would never buy again and probably ended up returning.
