Customer Reviews

I was asked by the author of this book to share my honest opinion. And to be honest, this book is not in my interest of area, but I give it a 5 star because that is well written, it is an easy read and I really appreciate quality books. I can admit I thought it was a bit interesting and funny at times and I think that if you are interested in Minecraft you will like this book a lot.

I was asked by the author to share my honest thoughts about this book. After reading it, i can honestly say that this is a high quality book. This book is really good for children, the story was funny and refreshing. Also, the whole book was interesing and i will hope to read more books like this one.

Another great book involving the Minecraft story. It's great for adults as it is for kids and it was no problem for me to read it although it was latein the night, it was that much interesting. Steve just makes me laugh very minute of the reading and that's what it's all about.

This series along with the Minecraft Zombie series have made my reluctant readers voracious readers. My kids giggle, laugh, and yell while reading these books. If your kids like Minecraft, they will love this series.

I am a huge fan of Minecraft series and stories about the amazing Minecraft World told by Steve the hero. Iâ™ve read most of Sara Wilsonâ™s books and I love her writing style. The action happens in Saundersâ™ village and presents Sabrina and Saraâ™s adventures with Steve, the main character. They try to save the world from Marigoldâ™s evil plot. Will they succeed againâ |.?

Me: I like this book, and the others in the arrangement, since it is interesting and fitting as story time or sleep time perusing. The writers cooperate to make the stories, sidekick books, and even Minecraft seeds that can be bought and played in amusement. This makes for an extraordinary perusing background.

My nephew enjoyed this story very much. A very refreshing story about Steve and his adventures as a minecrafter! When reading the books, I always anticipate what is coming next! I can therefore recommend the book to the young and young at heart, not only to the lovers of mine craft but to all those who love a good story.
