Synopsis

The complete system of the Trachtenberg method of mathematics which makes possible high-speed arithmetical calculations with a remarkable degree of accuracy.This method is not only speedy but simple. Once one has mastered the rules, lightning calculation is as easy as reading a story. It looks like magic, but the rules are based on sound logic.

Book Information

Hardcover: 272 pages

Publisher: Praeger (February 4, 1982)

Language: English

ISBN-10: 0313232008

ISBN-13: 978-0313232008

Product Dimensions: 5.5 x 0.6 x 8.5 inches

Shipping Weight: 1 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 starsÂ Â See all reviewsÂ (67 customer reviews)

Best Sellers Rank: #651,807 in Books (See Top 100 in Books) #131 inÂ Books > Science & Math > Mathematics > Popular & Elementary > Counting & Numeration #227 inÂ Books > Science & Math > Mathematics > Pure Mathematics > Number Theory #327 inÂ Books > Science & Math > Mathematics > Popular & Elementary > Arithmetic

Customer Reviews

The below review goes for any edition of the book; be it paperback, hardback, new, old, in any language whatsoever.I, however, first studied the books' danish paperback edition, published 1950'ish :: Starting out; you really only need to know how to count one-tru-eleven.The book sets out by presenting to you an entirely new way to 'think' multiplication: You'll learn to 'read' each individual cipher - stop memorizing of multiplication tables - . Completely mastered in about one lazy afternoon.Soon, you will be reading and handling numbers as well as ciphers in much the same way you now read books. It's such a joy - both rewarding and addictive - ; provided only your undivided attention and wholeheartedly commitment !Your memory will work and expand quickly; you'll find yourself dividing, multiplying and adding just for the fun of it - without any support of tools like pen & paper etc., even for billions*billions or division into like a zillion decimals ! In about one month I worked through this book cover-to-cover, read every single page of every chapter, did every single exercise over. *** This SYSTEM is guaranteed to WORK - anyone can learn it ***Even for someone who is not intimidated by numbers: this is the only book, you'll ever need to become the wizard of

every-day-basic maths.Do not for any reason skip any chapter or pages or the entire philosophy WILL elude you !With pen [indeed: PEN] and paper work your way attentively and meticously through every single exercise - especially the obvious ones ! PLEASE; Stay patient with each of the examples and repeat them over until you're completely mastering its unique technique.
