## Customer Reviews

For a long time, I thought I was going crazy. I'd convinced myself that something horribly wrong was about to happen. This book has lead me in the right direction towards correcting my problems. It took me awhile to decide to buy it but i'm so glad I did! To anyone who needs help with their anxiety definitely give this a try! My only grip is that it isn't the longest, but hey maybe that's a good thing as it doesn't have fluff to waste space.

I downloaded this book as a self-help tool for my anxiety. It was most helpful! Honestly, I was a little skeptical of the title at first, but i'm glad I gave it a chance. Before ordering it I struggled with sleeplessness and dreaded going anxiously through the day. The book helped me immediately to relax with the emphasis on breathing techniques and mindfulness. Prior to this book I was taking xanax and ambien to help calm myself whenever I needed it. I no longer require either of those. The book is an easy, fun read and is very practical and focused. It was well worth the money!

Living with anxiety is no way to live at all. If you are always panicking and getting anxiety attacks then you need a serious environment overhaul and some drastic changes. This book will help you make those changes as painless as possible. You will learn to recognize what triggers them, and just as important, how to develop preventative measures for those anxiety attacks. The author also covers some alternative methods to medication that might help out as well.

There are some very great tips and self help in this book. This is the first non-scripture book for which I have thanked God in prayer. In all sincerity I recommend this book without reservation for anyone with any anxiety, worry, obsessive-compulsive, or panic disorder. It has given me a completely different outlook and I am making real progress for the first time. Some techniques have been helpful to me. It is very amazing how this book really helpful for all the people even though without the money involves. A great book to handle anxiety either if you are considered "normal" or are going through a depression.

Anxiety? Goodbye!: Simple Steps to Happiness -- I such an interesting title that I am sure many will appreciate. This book has just shown how we can finally say goodbye and totally eradicate anxiety in our lives. And the steps to happiness, yes, can be simple but they will surely help a lot. Since happiness can be an elusive thing to most of us, with all the stress and pressure around us, getting it is a challenge. But this book however has made sure that we can do it. I personally appreciate the

discussion on the 12 Quick Tips to Eliminate Stress and Anxiety. This book is surely an enlightenment.

Having problems in dealing with anxiety? Worry no more! This book will totally solve it! This book is a very informative tool when it comes to curing or avoiding anxiety that most of the time affects our living. I found this book and I'm just happy that it provides every knowledge a reader must know about the given subject. The author had written this very well. Every thought is worth reading. I can say that this technique given by the book work incredibly well. I absolutely enjoyed the book! Great one.

Anxiety? Goodbye!: Simple Steps to Happiness (Positivity, Mindfulness, Fearless) This guidebook is excellent and helpful. Inside of this book the author has described some effective & simple steps to goodbye anxiety. This is a good reference guide book and by reading this book I have learned lots of techniques about positivity and mindfulness. This book helped me to understand about exactly what anxiety is. This book guided me about how to retain my brain to think positive. Here I have found some quick & useful tips to eliminate stress and anxiety. It is true that finding happiness in life sometime be challenging, but we can do it if we know the right steps. If you have any anxiety problem, then this handy book will be perfect for you. But I am expecting more improvement in the next edition of this book.

This book was okay. I bought it after I bought Tyler Moore's self esteem book (which is awesome by the way). I feel like the other book helped me a bit more as I was able to relate more to it. Maybe this will be better for people who have a larger anxiety problem than simply self esteem problem. Either way I like the author so I'd say go for it!
