Customer Reviews

Maybe this book came out at the wrong time. Maybe there is no demand. I grabbed it to see if I could learn anything new. I was researching a related topic at the time. Honestly, if you want to learn about the sniper's art from a book there are better books available. Yes, the author has professional background but the book just wasn't that good. I couldn't decide if the author was just trying to give an over-view; trying to stay within a certain number of pages; or just didn't want to go into detail. I shouldn't complain since I grabbed it as a daily freebie but when I get a book for free I assume that one reason is so that I might encourage others to buy it. If you're looking for someone to highly recommend this book- I can't. I'm writing this review long after the book was released and as of this moment no one else has submitted a review. I guess it didn't hit the mark for others...

if your seasoned in hunting and ex military it's just a refresher . but really good for the starters. or newbies

i am a sniper one of the best books

Ok for beginners.
