Karma-Yoga And Bhakti-Yoga

Synopsis

By Swami Vivekananda, Karma-Yoga and Bhakti-Yoga describes the way to reach perfection through the performance of daily work in a non-attached spirit (i.e. Karma-Yoga - the path of selfless action) and by sublimating human affection into divine love (i.e. Bhakti-Yoga - the path of divine love). Karma-Yoga and Bhakti-Yoga, along with Jnna-Yoga and Rja-Yoga, are considered classics and outstanding treatises on Hindu philosophy. Swami Vivekananda's deep spiritual insight, fervid eloquence, and broad human sympathy shine forth in these works and offer inspiration to all spiritual seekers.

Customer Reviews

This work remains a clasic and offers within one pair of covers understanding of an effective and proven path to spiritual balance. I have known this work most of my life, as I am the third generation of my family in the United States aware and helped by knowing Vedanta. Rarely have vision, knowledge and clarity of voice been combined with such felicity as in this work, which I place above almost all other works on religion, faith, spirit and spiritual practice. After almost half a century of spiritual seeking, paractice in Christianity, Zen, Eastern faiths, and now my personal daily spiritual unfolding of practice of loving kindness and service, I have come to see that the path described by the Swami in this work is one which we all share in fact, if not in name; service to all and to our loved ones IS the highest and easiest and hardest daily practice. I predict that this work will never go out of print, and I am glad that we retain the gift of this and other printed works to aid us all.

Mountains of hatred can be crushed using this book as a tool. Strong characters can be built using this book as a tool. Explanation of the Karma Yoga is very good. The Ramayana and Mahabharat have been narrated well. But the best part in the book is the explanation of Bhakti and its application in real life. The book teaches you to love Everybody. This book will touch you and question you if you are a bhakt.

Swami Vivekananda is, without a doubt, the best resource for learning and maintaining a practice in any of the four major yogas. I highly recommend this title as well as his titles on Jnana and Raja yogas as they complement one another beautifully. In Vedic science, and particular, the teaching of yoga, most books written are very complex and often difficult to understand in such a way that one can put the knowledge to use. Not so with Swami Vivekananda. He is direct and easy to comprehend, while at the same time he is passing on profound and useful concepts. His texts are the foundation of my Yoga library.

All of Swamiji's books are truly priceless. His material is over a century old and yet as a novice spiritual seeker, I'm able to comprehend everything. Everyone should read all of his works to get a sense of appreciation for the legacy he has left behind.

Swami Vivekananda's teachings will truly inspire you to be a great human being with a GREAT CHARACTER. This book is a must read for students, youngster's, and every one who wants to be charged and lead the life successfully.

This book covers two of the most important spiritual paths of Hinduism in eloquent and evocative language with a direct appeal to the heart. However, by no means is it restricted to a particular belief or sect. This book is a collection of speeches and writings of Swami Vivekananda on Karma and Bhakti Yoga; the lectures read together very well and if one were not told in advance that this was a collection, it would read just like a book. Swami Vivekananda has a genius for giving an unexpected angle of thought to these subjects. The logic and reason of these paths are brilliantly treated. We see that these are not doctrinal paths but teachings which are in harmony with modern science and thought. The wisdom of Karma Yoga provides a vital input on leading our lives in the modern age, and Bhakti Yoga, interpreted in such rational language, is as relevant today as it was in ancient times. It is to the credit of Swami Vivekananda that he makes us realize the importance of these

teachings and brings them alive for us. This book is a must for all who wish to practice spirituality in the modern age....P.J.Mazumdar, author of "The Circle of Fire"
