Customer Reviews

This is the coolest book ever!! I bought it for my son for his high school graduation, with the intent to make him more comfortable with casual conversations and meeting new people. I have now introduced it to my co-workers as a way to make more personal connections with our customers. And you can open it up at a party or with a group of friends at any gathering to get a great discussion started instantly. LOVE IT!!!!

I used this book just to start conversation about anything, or even find out things about my wife that I

never asked about. It definitely works to get to know someone or start some inspiration for a monologue.

My friends and I have been having a great time answering these questions and have really gotten to know each other better even having been friends for 20 years.....lots of laughing!

Some are ok, but a lot of the questions are redundant. Most of these you can come up with in your own. I'm not sure what I was really expecting. But this book really isn't for me. I will give it another chance, and will update with a new review.

It is a good basic book of questions. Some wind up with a one-word answer which really does not spark a conversation, but the questions are good questions to use for conversation or when you need to "think of something to ask or say"!!

I have the first version of this book, I saw it at Stand Bookstore \$1 book carts and thought why not? I like that there are 4000 questions, not 365... And the size of the book is so small so I can take it with me. :) I would buy it at full price all over again.

I use these type of books for speech therapy, and find it opens up a whole new way of getting the patient to think.

Literally the best question book in the world. You will never not have a conversation starter again!
