Customer Reviews

Good lists and specific recommendations for home defense. The author gives you everything you need to prepare your family, and close friends for whatever may come. I really liked the precise and direct instruction on tactical training, strategies and specific maneuvers. Overall a great read, and I would recommend this to every, especially the beginners, but I feel it could offer some tips to the experienced as well.

I have always been reading prepperâ™s guide books just for security purposes in case a disaster happen. So far, this is one of the most informative and easy to apply book I have read. Even a newbie reader can easily understand the importance of being ready BEFORE anything unexpected happens. Being prepared for the worst is better than being unprepared at all. As far as context is concerned, everything is laid out in this book. It answers why you should be preparing right now while you can. Most importantly, it answers how can you be prepared for long term survival. The seven survivalist golden rules is the highlight and fundamentals of long term survival. Everyone must be informed. This book is a must read. I have recommended it to my loved ones already. I am glad that I have read this book today.

Nice book for all! After reading this book, you will be learn about home defense. If you are fortunate to be in such a situation, I was blown away by how many aspects of home defense this book manages to cover. I'm an expert survivalist and I've had a lot of practice at living off the beaten path, making my way with nothing but a set of basic tools and my own experience to sustain me. I also like it that it is written in a way that could be understood by an average reader. . It also provides strategies for evading, barricading, and battling an armed threat in your home. Purchased it!

A good portion of the book deals with steps that are best implemented in a group environment; a group of preppers that are physically close together and can build a support team. If you are fortunate to be in such a situation, I was blown away by how many aspects of home defense this book manages to cover. From watchdogs to safe rooms to children and operational security, this book manages to offer some practical advice in a dizzying variety of areas related to home defense. This book offers so much more than just shoot the bad guys. From the type of dog you might want to have, to what type of plants and where and how to plant them. What common items might be used as weapons, inside and outside the home .

This is very excellent book! I am reading this book with my family. I am really enjoyed this book. Especially in these days when you do not know what could be tomorrow war, disaster, or something else. Then in more detail, he goes into what exactly you need to be thinking about to meet your needs when in survival mode, and gives you excellent advice on it. I'm an expert survivalist and I've had a lot of practice at living off the beaten path, making my way with nothing but a set of basic tools and my own experience to sustain me. It tells how to literally turn your home into a fortress \ bin, be sure in the future and not be afraid of disasters! Highly recommend it.

This book is very useful that I suggest you keep one in your library. It is rich in tips and tricks. It asks questions that would help you decide how secure your home is, if you need to improve your home security system or not. I also like it that it is written in a way that could be understood by an average reader. It is a short book but it was able to answer all the questions that I had.

As a person who likes to be ready for any potential situation, this book is very informative. Having a military background, this book teaches some military tactics, but in layman's terms that are easily understood. Being able to defend your house and your family should always be at the forefront of you concerns, and this book is a great guide on how to do so if ever needed.
